STANFORD’S ENERGY INNOVATION AND EMERGING TECHNOLOGIES PROGRAM:

MEET YOUR PEERS

Thinking about signing up for the program? Here’s a little information about your fellow peers

They’re new to online courses:

- 63% of program members have never taken an online course before.
- Only 35% completed their undergraduate degree online.
- 46% of program members have earned a degree both online and in-person.

They’re not all energy sector veterans:

- Only 43% of program participants have past experience working in energy.
- 25% come from the tech space, while others represent the government, educational, marketing, and manufacturing sectors, among others.

They come from all over the world:

- 46% of program participants were born in countries other than the United States.
- Only 46% of program participants completed their undergrad degrees in the U.S.
- All told, program alums represent 34 different countries across the globe.

They can find a little time for education:

- Participants complete the program within 4 months, on average.
- 35% of program members are enrolled in the program while employed full-time.
- 30% are enrolled in the program while employed part-time.
- 34% range in age from 24 to 32.
- 35% range in age from 33 to 44.
- 30% are over the age of 44.
